GREENSBURG TOO MANY

For W. A. C. winning by a score of 25 to 0 in an exciting game—winners of the championship—other Greenburg teams.

The W. A. C. football team suffered its first defeat Saturday, the victors being the famous Greensburg aggregation of salaried stars. There was no disgrace in the defeat, not by any means, and the home boys covered themselves with glory. Not one of the 400 spectators left the Island park with anything but praise for the stubborn defense W. A. C. put up. The locals fought hard for every inch of territory, and the score 25 to 0 represents the best Greensburg could do in 25 and 20 minute halves.

The weather was perfect for football, a trifle warm for the players, but very comfortable for the spectators. The opposing teams lined up as given in Saturday's Intelligence, with the exception that Sigman played fullback for Greensburg. Two touch-downs were made in each half, Donohue failing on one goal, which netted twenty-three points. Mathis fell on the ball behind Wheeling's line, making a safety and thus securing Greensburg out of a touch-down. The two points for the safety aggregated 25 credited to the stars.

The game was replete with brilliant plays. It was full and wormwood to the spectators to see big Rinehart wade through W. A. C.'s line, or see the Indian, Jimason, leap over the line, and by rolling and wriggling across the ground add several more yards. Barclay's runs were another feat. The clever Greensburg coach plays a desperate game, on the "doggy" trenchard style, and one wonders every minute if he isn't going to break his neck. Like Jimason, he is a long jumper, and he was almost put out of the business once when Curtis tackled him, throwing him several feet in the air. That tackle stopped Barclay from a certain touch-down.

The leaping style of play must be taught at Greensburg—the town where the preachers have drawn up an eleven-point commandment. "Thou shalt tackle low," and where lovers talk to each other not of the ethereal, but of the longed-for big game, but of the rivals at Lattrobe. Big Barclay, who is a leaper, and over the line seems to be their orders. The leapers are assisted by Flowers, the quarter back, who poses as the stepping stone of the leaping artists.

Arthur McFarland's work was finer than his Wheeling admirers supposed. He made two of the touch-downs, and shared the honors with Rinehart. He is the best ground-gainer, at tackle, in the country. The team is all right, but the glittering quarter is made up of Rinehart, Barclay, McFarland and Jimason. Rinehart scored first, getting past Curtis, who for the rest of the game tackled like a fiend. The Wheeling men shone in the tackling line, the honors being divided among the three Edwards boys, Curtis, Clark, Gray and Barrett. They never played harder and it is doubtful if Greensburg did, for they had to play for their salaries and tried their hardest to roll up a million points. They defeated New Castle 47 to 0, Jeannette 49 to 0, but struck a snag in the big score line against Wheeling.

Wheeling made a desperate stand near the end of the last half, when the ball was on Greensburg's ten-yard line. Sol Edwards tripped when a touch-down hovered near, and in the ensuing scrimmage, Capt. "Dob" Edwards' leg was injured; fortunately, however, the injury was not serious at first reported, but he was hardly in the game for a week or two. The game ended in the middle of the field, Greensburg having punted it out of danger. W. A. C.'s defeat was expected. The Greensburgs do nothing but play football. They practice constantly, all know the game's fine points and they were heavier and in better condition all round than Wheeling. They knew they were in a game, you bet, and had to work hard, down after down, to advance the pigskin. While the crowd wasn't as large as expected, Greensburg's guarantee was met and W. A. C. has a surplus in its treasury—the first in the local history of the game at a corresponding period of the season.

Other Saturday games resulted as follows: W. & J. H. P. C. C. O. Pittsburgh College 16; Steubenville 0. Harvard 11; Carlisle Indians 5. Yale 39; West Point 0. U. & P. 22; University of Chicago 11. D. C. & A. C. 18; State College 5. Princeton 23; Brown 0. Cornell 6; Oberlin 0.

Steubenville's team was helped, out by McAninch, formerly of W. A. C., and Lewis and Thomas, of the Activeville Juniors. W. A. C. would like to play Steubenville here Saturday.

Against their heavier opposing line, Barrett, Mathis, Thomas, Smith and Specht put up an elegant game. Barrett and Specht were in it at all stages.

Governor Atkinson was an interested spectator of the Greensburg-W. A. C. game.

The Madisons go to Bethany Saturday to play Bethany College, and will bring out a strong team.

Immense Grain Shipments.

PHILADELPHIA, Pa., Oct. 30.—More than six hundred thousand bushels of wheat and corn cleared the custom house yesterday on steamers bound for European ports. The shipments consisted principally of corn, the British steamship Picton taking 116,563 bushels for Ipswich; the British steamship Cairo 110,000 bushels to Silgo, and the British steamship Strathella 70,000 bushels to Rotterdam, besides a large general cargo. The cargo of the British steamship Roxby consisted of 144,000 bushels of wheat for Antwerp. The American line steamship Aragon took out 60,000 bushels of wheat, 100,000 bushels of grain, besides a large general cargo. The shipments of wheat and corn from Philadelphia since January 1 have aggregated over 25,000,000 bushels.

Total of Eighteen Fatalities.

TOLEDO, Ohio, Oct. 30.—Two bodies were taken from the ruins of the Union elevator fire to-day. One is thought to be that of Bert Walwright, who is still unaccounted for. A total of eighteen dead is the result of this fire which occurred September 20.

Most women approach the critical period of motherhood for the first time with a sense of dread and foreboding lest the ruthless hand of death should snatch them away and leave the expectant little darling motherless. But no woman who fortifies herself with the strengthening power of Dr. Pierce's Favorite Prescription need feel one instant's misgiving about either herself or the prospective little one.

This matchless "Prescription" will give her exactly the kind of healthy vitality she needs and at the time she needs it most. It will give elastic endurance to the entire delicate organism involved in motherhood. It will make the coming of baby absolutely free from danger and nearly free from pain.

It will insure the baby's start in life by imparting, through its influence upon the mother, that sturdy infantile vigor which gladdens a mother's heart. It is the only medicine which can be implicitly relied upon for this purpose; and the only remedy expressly designed by an educated, experienced physician to give perfect health and strength to the delicate, special organism of women.

Dr. Joseph Ramsey, of Williams, Colleton Co., S. C., writes: "I have been using your medicine for some time and am happy to say that they have done all that you claim for them. I think they have no equal in the world. I would advise all women while in a delicate state to use Dr. Pierce's Favorite Prescription. It shortens the time of the confinement and makes the labor easier. My wife is the mother of five children and she suffered almost death in the birth of them until this last one; the time of birth was short, and labor easy from the use of Dr. Pierce's Favorite Prescription."

Dr. Pierce's Common Sense Medical Adviser used to sell for \$1.50, now it is free. It tells all about the home-treatment of ordinary diseases. Several chapters are devoted to the diseases of women. For a copy, covered copy send 21 one-cent stamps, to cover cost of mailing only, to the World's Dispensary Medical Association, Buffalo, N. Y. Cloth binding, it stamps, "Favorite Prescription" can be obtained in any good medicine store.

EX-PRESIDENT HARRISON

On the Political Issues of the Hour—The Vital Point is to Down the Free Silver Movement—A Tale of Warning to the Country.

INDIANAPOLIS, Ind., Oct. 30.—Chairman Hernly, of the Republican state central committee, recently invited ex-President Harrison to take part in the campaign. The ex-President has sent Mr. Hernly a letter in which, after saying that important legal business will occupy his time for several weeks, he discusses national questions as follows:

"In New York, where I was recently, the Democratic party has pushed aside the silver question and is making a campaign upon the theory that national issues and especially the free silver question are not involved. In Indiana the case is quite different. The Democratic party here has affirmed with emphasis the Chicago platform of 1896 and in our own district I understand the Democratic candidate for Congress is strongly urging upon the people the issue of free silver coinage at the ratio of 16 to 1."

"Now, whatever may be the case in New York here a Democratic success would distinctly set forward and strengthen the propaganda for free silver coinage. In New York many Gold Democrats who affiliated with the Republican party in 1896 are saying that the silver issue is not involved, but men of that faith certainly cannot say so in Indiana. It seems to me that it would be a distinct set-back for the cause of honest money and a distinct injury to the state of Indiana if, in a year so prosperous as this, a majority of our people should vote for the free coinage of silver. Honest money Democrats who have hoped that that issue might not meet them again in a Democratic national convention will help to make its appearance there certain if they aid in securing a Democratic victory in Indiana this year. The apparent settlement of that issue in 1896 contributed immensely to bring the prosperity which we now enjoy, to give confidence to capital and to secure work and wages in good money to the working man. These classes were awake then to the vital importance of this issue and responded with an overwhelming negative. It would be an unpleasant thing to contemplate while in the enjoyment of the fruits of that victory any of those who supported the cause of sound money in 1896 should now, either from lethargy or pique or through the influence of minor questions, be led either actively or passively to give their aid to the revival and perpetuation of this disturbing influence."

"I cannot understand why any Republican in the state should withhold either his influence or his vote from the Republican ticket. Small difference as to the details of administration and smaller differences growing out of personal disappointments, should be put utterly aside."

Another consideration, I think, should strongly influence the voters of the state. The nation went into a war with Spain, supported by the moral sentiment of the great majority of our people of all parties. It was felt that as Cuba there was a distinct call upon the United States to insurrections, and misgovernment of Spanish cruelties and misgovernment there. The firing line has been withdrawn and our ships are largely in our own harbors, after achievements on land and sea that have given increased fame to American arms; but our foreign relations are still acute and unsettled, and the appeal to which the response was so generous and non-partisan at the beginning of the war to stand by our own country and its executive and administrative officers, should not give, or seem to give, encouragement to those who would find in our discords and divided counsels their advantage. Our British cousins have the good habit of standing by when their nation is conducting delicate and irritating foreign questions.

(Signed) Very truly yours, BENJAMIN HARRISON.

A Discovery in a Menagerie. Weekly Telegraph: An amusing incident was witnessed in a certain menagerie the other day. Here and there between the cages a number of the well known trick mirrors were placed. An Irishman, after a critical survey of the monkeys, had wandered away from his better half, and suddenly found himself in front of one of these mirrors. After one glance at his distorted reflection he rushed back to his wife, who was still watching the antics of the monkeys.

"Come away wild ye, Bridget," he exclaimed. "O'fe found a bigger tree than that—the ugliest basto in the show. He's in a little cage in the corner."

Bridget offered no objections. Two or three of the bystanders who had heard Patsy's remark were equally anxious to obtain a peep at the "ugliest basto" and there was quite a procession to the "little cage in the corner." Patsy, as the original discoverer, secured first place and dragged his wife in front of the mirror. To his astonishment there was more in the "cage" than he expected.

"Begorra, Bridget!" he suddenly exclaimed, "there's a pair ay thim."

Patsy had a lively time of it when some one explained the situation to Bridget.

WHAT DO YOU THINK OF THIS?

Could Any Other Known Remedy Have Accomplished It?

R. T. Booth Co., Gentlemen:—In refuting a few evenings ago with a severe cold, I rapidly grew ill during the night shooting pains darted through my chest and side, making breathing very painful; shortly came on a severe headache, and my face became from the time deeply tinted with blood. The only remedy at hand was Hyomel, in which I had little faith. I inhaled it through the nostrils and mouth freely. The effect was like magic, and I now feel that to this great discovery I owe my recovery, my life.

Three Doctors in Consultation. (From Benjamin Franklin.)

"When you are sick, what you like best is to be chosen for a medicine in the first place; what experience tells you is best, to be chosen in the second place; what reason (i. e., Theory) says is best is to be chosen in the last place. But if you can get Dr. Inclination, Dr. Experience and Dr. Reason to hold a consultation together, they will give you the best advice that can be taken."

When you have a bad cold Dr. Inclination would recommend Chamberlain's Cough Remedy because it is pleasant and safe to take. Dr. Experience would recommend it because it never fails to effect a speedy and permanent cure. Dr. Reason would recommend it because it is prepared on scientific principles, and acts on nature's plan in relieving the lungs, opening the secretions and restoring the system to a natural and healthy condition.
